C#, VB.NET, ASP.NET, Ruby, Rails, Javascript, jQuery, HTML, CSS
MS SQL Server, MySQL
NUnit, RSpec

Professional Experience

January 2008 – Present: Software Developer - RTW, Inc
Led architecture and full life-cycle development of several web-based solutions including customer-facing policy underwriting systems and internal maintenance applications. Designed and implemented several framework libraries for use throughout all web-based software developed internally. Provide ongoing maintenance and fixes on other core applications concurrent with new development. Mentor associates in web development methodologies and best practices.
Technologies: ASP.NET, MS SQL Server 2005, Javascript, jQuery, HTML, CSS

June 2006 – December 2007: Software Developer - SAP Labs, LLC
Maintained and enhanced Commerce and CRM software package and helped leverage existing code base into a hosted ASP model. Designed and implemented an attribute matrix tool that allowed customers to place bulk orders with various configurations; built an asynchronous XML engine to synchronize data from the core product to SAP Accounting systems. Promoted after seven months.
Technologies: C#, ASP.NET 2.0, MS SQL Server 2005, Javascript, HTML, CSS

May 2007 – Present: Private Contract
Developed custom applications and public websites for individuals and small businesses including studio253finishes, portfolio management solution for a painting professional and public website that hooks into data from his portfolio.
Technologies: Ruby, Rails, MySQL, Javascript, HTML, CSS

May 2005 – June 2006: Software Developer - iDSS
Developed a Facility Space Reservation System with dynamic attributes and advanced search functionality. Helped maintain and develop features for a web-based Sales and CRM System.
Technologies: C#, ASP.NET 1.1, MS SQL Server, Javascript
